

PAPER GOLF

3 courses x 18 holes
a pen + a d6 is all you need

HOW TO PLAY

Goal: get the ball from the tee (white ring) into the hole (black dot) in as few strokes as possible. Par is 6.

DICE GOLF (with a d6)

Roll the die: that is how many spaces the ball travels in a straight line. Pick any of the 8 directions. +1 to the roll when hitting from fairway, -1 from sand. You may always putt (move 1 space) instead of using your roll.

Draw the line, then a small circle at the new ball spot.

You may re-roll once on each tee shot. You also have 6 mulligans per course: mark one off to re-roll any shot.

SPEED GOLF (no die)

Choose a club each shot: DRIVER moves 6 (fairway only, may fly over trees), IRON moves 3 (2 from sand, never over trees), PUTTER moves 1 (always allowed).

LANDING RULES

The ball may fly over water but never land in it. Trees block the ball: you can only fly over trees when hitting from the fairway, and you may never land on a tree.

If your line crosses the hole you may stop 1 space past it and count it as holed. Slope arrows push the ball 1 space (keep rolling on chained arrows, ignore arrows into water).

TERRAIN

fairway (+1 to roll, driver ok)

sand (-1 to roll)

water (no landing)

trees (block shots)

slope (ball rolls 1)

tee / hole

COURSE 1

Quiet Hollow Links

18 holes . par 6 each
